GENERAL STATUTE 160A-385: CHANGES.

(a) Zoning ordinances may from time to time be amended, supplemented, changed, modified or repealed. In case, however, of a qualified protest against a zoning map amendment, that amendment shall not become effective except by favorable vote of three-fourths of all the members of the city council. For the purposes of this subsection, vacant positions on the council and members who are excused from voting shall not be considered “members of the council” for calculation of the requisite supermajority. To qualify as a protest under this section, the petition must be signed by the owners of either (i) twenty percent (20%) or more of the area included in the proposed change or (ii) five percent (5%) of a 100-foot wide buffer extending along the entire boundary of each discrete or separate area. A street right of way shall not be considered in computing the 100-foot buffer area as long as that street right of way is 100 feet wide or less. When less than an entire parcel of land is subject to the proposed zoning map amendment, the 100-foot buffer shall be measured from the property line of that parcel. In the absence of evidence to the contrary, the city may rely on the county tax listing to determine the “owners” of potentially qualifying areas. The foregoing provisions concerning protests shall not be applicable to any amendment which initially zones property added to the territorial coverage of the ordinance as a result of annexation or otherwise, or to an amendment to an adopted (i) special use district, (ii) conditional use district, or (iii) conditional district if the amendment does not change the types of uses that are permitted within the district or increase the approved density for residential development, or increase the total approved size of nonresidential development, or reduce the size of any buffers or screening approved for the special use district, conditional use district, or conditional district.

(b) Amendments in zoning ordinances shall not be applicable or enforceable without consent of the owner with regard to buildings and uses for which either (i) building permits have been issued pursuant to GS 160A-417 prior to the enactment of the ordinance making the change or changes so long as the permits remain valid and unexpired pursuant to GS 160A-418 and unrevoked pursuant to GS 160A-422 or (ii) a vested right has been established pursuant to GS 160A-385.1 and such vested right remains valid and unexpired pursuant to GS 160A-385.1

Re: Circle K Convenience Store
3424 Matthews-Mint Hill Road
Matthews, North Carolina 28105
Application for Change in Zoning Classification

Mr. Camp,

This letter is to address how the request for rezoning at the above referenced site is reasonable and in conformance with adopted development goals and policies of the Town of Matthews.

This property is currently used as a convenience store with a stand alone car wash. It has been used as such since acquisition by the current owner in July of 1999. During this ownership the property was rezoned to B-2 (CD). The current and proposed use of Convenience Store with gasoline sales is permitted by right per section 153.060 (B) #67(b) of the Matthews Zoning Code which reads “Retail mini-markets for the sale of groceries, beverages, and incidental household goods with gasoline pump sales. B-2 only.”

The applicant proposes the following changes to their existing site:

a) Remove the existing Car wash building.
b) Remove the existing convenience store.
c) Existing gasoline canopy to remain.
d) Remove the existing single dumpster enclosure
e) Build a new larger convenience store building with improved architectural features (brick, metal roofing) to better blend in with the existing adjacent buildings.
f) Build a new double dumpster enclosure to house both trash and recycling containers. The proposed enclosure will use brick to match the proposed building.
g) Construct new sidewalks at Matthews-Mint Hill Road and Idlewild Road.
h) Add an underground stormwater detention system to the site.
i) Build new “right in, right out” traffic feature at the existing drive on Matthews-Mint Hill Road.

These changes, along with various others shown of the proposed site plan, will enhance the overall appearance of the site and contribute to improved traffic flow for vehicles entering and exiting the site and for vehicle maneuvering internally on-site.

The above outline demonstrates how this existing use complies with the B-2 zoning and how the proposed changes to the existing site will increase its conformity with the purpose stated in the Matthews Zoning Code.

Please feel free to contact me with any questions or if you require any further information.

Sincerely,

Chris L. Hope, P.E.
