DEVELOPMENT STANDARDS
June 27, 2013

1. General Provisions

- a. These Development Standards form a part of the Rezoning Plan (the "Rezoning Plan") associated with the Rezoning Petition filed by Standard Pacific Homes (the "Petitioner") related to a 104.27 +/- acre site located near the intersection of Pleasant Plains Road and McKee Road, and more particularly depicted on the Rezoning Plan (the "Property").
- b. The Property's current zoning limits the use of the property to a large-scale retirement community accommodating 1100+ units. As depicted on the Rezoning Plan, the Petitioner proposes to rezone a 81.33 +/- acre portion of the Property (the "Site") to the R-VS zoning district in order to accommodate the development of a neighborhood of one-family detached dwellings and related amenities.
- c. The portion of the Property lying east of Duke power line easement, consisting of 22.54 acres (the "Remainder Parcel") is not controlled by the Petitioner and is not a part of its development plan. However, the owner of the Remainder Parcel has consented and authorized the Petitioner to propose to rezone the Remainder Parcel to the R-20(CD) zoning district and subject it to the following conditions: (1.) land development activity shall not be permitted on the Remainder Parcel unless another rezoning approval for the Remainder Parcel is granted by the Town of Matthews; and (2.) any future development plans for the Remainder Parcel shall provide vehicular access to the Site that will connect it to McKee Road and Pleasant Plains Road.
- d. In order to provide additional separation between the Site and an architecturally significant residence and barn located on adjoining property owned by Timothy and Carolyn Fincher (Tax Parcel 227-562-03), the Petitioner proposes to rezone a .45 +/- acre portion of the Site to the R-20(CD) zoning district as generally depicted on the Technical Data Sheet.
- e. The Petitioner proposes to develop an innovative neighborhood that will accommodate a range of lot sizes and price points for single-family homes while also providing a vast open space and pedestrian trail network throughout the Site, as well as a protected landscape area around the perimeter of the Site. In order to accommodate these features, this Rezoning Petition proposes the use of Innovative Development Standards, which are described in the Innovative Development Standards section below, as provided for by Section 153.207 of the Matthews Zoning Ordinance (the "Ordinance"). The Rezoning Plan identifies the specific areas where Innovative Development Standards may be applied.
- f. Unless the Rezoning Plan or these Development Standards establish more stringent standards, the regulations established under the Ordinance for the R-20 zoning district, shall govern any use of the .45 acre portion of the Site, and the regulations of the Residential Varied Style ("R-VS") zoning district (subject to the Innovative Development Standards set out below) shall govern all development taking place on the 81.33 +/- acre portion of the Site.
- f. The exact alignments of internal streets are subject to final design and engineering plans. Accordingly, minor modifications or alterations of these alignments may take place during design development and construction phases.
- g. The exact locations of lots and open spaces have not been determined. The Petitioner, therefore, reserves the flexibility to make adjustments to the precise lot and open space locations shown on the Rezoning Plan during the design development and construction phases. However, the placements of lots and common areas shall be generally consistent with the locations depicted on the Rezoning Plan and satisfy all other Ordinance standards.

2. Permitted Uses

- a. The Site may be devoted to a residential community of one-family detached dwellings and to any accessory uses that are clearly incidental and related thereto, including the following uses:
 - (1) Subdivision sales office;
 - (2) Accessory uses permitted in single-family districts, including but not limited to a swimming pool and clubhouse.

3. Maximum Density

- a. A maximum of 192 one-family detached dwelling units and accessory uses may be developed on the Site.

4. Innovative Development Standards

- a. Pursuant to Section 153.207 of the Ordinance, this Rezoning Petition seeks the approval and use of Innovative Development Standards in order to create a unique development on the Site. The Rezoning Plan incorporates a variety of lot sizes, protected perimeter landscape areas, pockets of open space within the developed area, innovative street designs, an extensive sidewalk and trail network, amenities that feature the property's natural features, and a vast amount of passive open space. The innovative standards shall be applicable to the 48.70 acre portion of the Site identified as R-VS Innovative on the Technical Data Sheet.

- b. In order to accommodate the innovative site design features listed above, the Petitioner requests modifications to the R-VS development standards as set out below and shown on the Rezoning Plan:

- (1) Minimum Side yards: 5 feet
- (2) Minimum Setback: 20 feet
- (3) Minimum Rear yard: 20 feet
- (4) Minimum Parking on Corner Lots: Allowed in a sideyard within six feet of the side street

5. Setbacks and Yards

- a. Within the area designated on the Technical Data Sheet as "Innovative Area," the setback and yard requirements of the R-VS zoning district may be modified through the use of Innovative Development Standards. All other areas shall satisfy the setback, rear yard and side yard requirements set forth in the R-VS zoning district.

- (1) Innovative Area:
 - Minimum Side yard: 5 feet
 - Minimum Setback: 20 feet
 - Minimum Rear yard: 20 feet
- (2) Other Area:
 - Minimum Side yard: 6/8 feet
 - Minimum Setback: 20 feet
 - Minimum Rear yard: 30 feet

6. Access

- a. The number of vehicular access points into the Site shall be limited to the number depicted on the Technical Data Sheet.
- b. The Petitioner agrees to construct a pedestrian connection from the Site to Hamlet Court as generally depicted on the Schematic Site Plan.
- c. The Petitioner agrees to construct a street connection from the Site to the Remainder Parcel, as generally depicted on the Technical Data Sheet.
- d. The Petitioner shall set aside and offer for dedication, an area to accommodate a potential future connection from the Site to Clarks Wind, as generally depicted on the Schematic Site Plan. Petitioner shall not be obligated, now or in the future, to fund or construct any such connection. If, at some time in the future, Clarks Wind becomes a public right-of-way, the Town of Matthews may elect to establish a pedestrian or vehicular connection at this location.
- e. The Petitioner shall construct a pedestrian connection linking homes located in the southwestern portion of the Site to the proposed sidewalk along the Site's McKee road frontage, as generally depicted on the Schematic Site Plan.
- f. The placement and configuration of the access points are subject to any minor modifications required to accommodate final site and construction plans and designs and to any adjustments required for approval by the North Carolina Department of Transportation ("NCDOT") and/or the Town of Matthews (the "Town").

7. Transportation Improvements

- a. Prior to the issuance of the first certificate of occupancy for any new building to be constructed on the Site, the Petitioner shall b the following transportation improvements:
 - (1) A northbound left turn lane on Pleasant Plains Road with 325 feet of storage and a 150-foot bay taper (tying into the existing southbound left turn taper for Savannah Hills Drive) at the intersection of McKee Road and Pleasant Plains Road;
 - (2) Re-mark the existing middle lane (currently serving as a two-way left-turn lane) on McKee Road with an eastbound left-turn lane with 200 feet of storage at the Site's access point to McKee Road;
 - (3) Construct a westbound right-turn lane on McKee Road with 100 feet of storage and a 150-foot bay taper at the Site's access point to McKee Road;
 - (4) Construct the southbound approach of the Site's McKee Road access point for one ingress and two egress lanes (a combined left-through turn lane with a minimum of 150 feet of stem length and a lane that terminates as a right turn lane);
 - (5) Construct a westbound right turn lane on McKee Road with 175 feet of storage and a 150-foot bay taper at the intersection of McKee Road and Weddington Road;
 - (6) Extend the existing southbound left turn lane storage on Weddington Road from 215 feet to 315 feet (pavement re-marking) at the intersection of McKee Road and Weddington Road. With this improvement the northbound left turn lane storage on Weddington Road at the existing shopping center driveway is reduced from 205 feet to 150 feet (with a bay taper of 90 feet separating the two opposing left turn lanes).

8. Streetscape Treatment/Sidewalks

- a. Sidewalks, planting strips and street trees shall be installed on both sides of all internal streets throughout the Site, as generally depicted on the Rezoning Plan. On internal streets, all sidewalks shall be at least five feet in width and all planting strips shall be at least five feet in width. In some areas, ten foot wide multi-use trails shall be provided in lieu of sidewalks. Exhibits 4-B, 4-C and 4-D illustrate the variety of streetscape cross-sections that may be implemented internal to the Site. The locations of the internal sidewalks and multi-use trails are subject to such modifications as may be required to accommodate final site and construction plans and designs and to any adjustments required for approval by the Town of Matthews Planning Staff.
- b. The streetscape treatments along the Site's frontage on McKee Road shall comply with the requirements of the Ordinance and the Rezoning Plan. The sidewalks to be installed along the Site's frontage on McKee Road shall be at least eight feet in width and may meander. To the extent that the sidewalks installed along the Site's frontage on McKee Road or any portions thereof are not located within public right of way, the Petitioner shall grant an easement to the Town for the use and maintenance of the sidewalks or the relevant portions thereof.
- c. The location, design and installation of the sidewalks along the Site's frontages on McKee Road shall be subject to the approval of the NCDOT.
- d. On-street parking shall be permitted and will be specifically accommodated on certain street types as illustrated on Exhibit 4-B.
- e. All lots shall accommodate off-street parking for at least two vehicles.

9. Passive Open Space/Amenities

- a. As depicted on the Schematic Site Plan, 21.30 acres within the Site shall be devoted to Unobstructed Open Space. The Petitioner may install underground utilities and stormwater facilities within the open space areas.
- b. As depicted on the Schematic Site Plan, 12.58 acres within the Duke power line right-of-way shall be open space (the "Power Line Open Space"). The Petitioner shall install a multi-use trail system that meets Mecklenburg County Park and Recreation Department standards for greenway trails within the Power Line Open Space. A trail system is depicted on the Schematic Site Plan, but the layout of actual trail system within the Power Line Open Space may vary significantly to suit the topography and other natural features.
- c. The Petitioner agrees that within six (6) months after this Rezoning Petition is approved, it will enter into conversations with the Town of Matthews to explore the possibility of conveying or granting an easement to the Town, or other public entity, over the Power Line Open Space, subject to a mutually agreeable arrangement providing for the maintenance and upkeep of this area by the Town, or other public entity, and, in the event of a easement, providing Petitioner with a liability insurance policy protecting it from and against liability arising from any public activities on this portion of the Site.
- d. As depicted on the Schematic Site Plan, 2.70 acres located between the Power Line Open Space and those existing lots fronting on Hamlet Court shall be private open space and shall not be offered to a public entity for dedication. Existing trees within this open space area shall remain undisturbed.
- e. The community to be developed on the Site shall, at minimum, contain the following amenities:
 - (1) A clubhouse building;
 - (2) A swimming pool; and
 - (3) Passive open space areas.
- f. The clubhouse and swimming pool amenities shall be completed prior to the issuance of a certificate occupancy for the 30th house to be constructed on the Site.

10. Protected Landscape Areas

- a. Petitioner shall provide Protected Landscape Areas around the perimeter of those areas of the Site identified on the Technical Data Sheet. Unless otherwise indicated on the Technical Data Sheet, the Protected Landscape Areas shall be at least 20 feet wide. The Protected Landscape Areas are not included as part of the required rear yard for proposed lots. Protected Landscape Areas shall be maintained by a Homeowner's Association.
- b. Protected Landscape Areas along the Site's frontage on McKee Road shall be at least 30 feet wide.
- c. Within the Protected Landscape Areas the Petitioner shall install four trees and twelve shrubs per 100 linear feet of Protected Landscape Area. All trees shall have a minimum caliper of 2 inches measured 6 inches above ground at the time of planting. At least 75% of the shrubs shall be evergreen and at least 2½ feet tall when planted with an average height of 5 to 6 feet to be expected as normal growth within four years. Where practical, Petitioner shall preserve vegetation within the Protected Landscape Areas, especially trees.

11. Trees

- a. The Petitioner shall satisfy or exceed the Ordinance's requirement to provide a 20% Tree Canopy through a combination of preserved trees and new plantings as shown on the Rezoning Plan.

12. Architectural Commitments

- a. Set out on Exhibit 8 are architectural perspectives that are intended to depict the general architectural style, character and elements of the front elevations of the one-family detached dwellings proposed to be developed on the Site. Accordingly, the front elevations of the proposed one-family detached dwellings to be developed on the Site shall be designed and constructed so that they are substantially similar in appearance to the schematic architectural perspectives in terms of their architectural style, character and elements.
- b. The permitted exterior building materials for one-family detached dwellings shall be brick, synthetic stone, cementitious lap siding, board and batten siding and trim and solid synthetic or composite trim. Vinyl shall not be a permitted exterior building material, provided, however, that vinyl may be utilized on the soffits and the exterior railings and vinyl windows may be installed. Vinyl shutters and other exterior accent features are permitted.
- c. The clubhouse building shall be compatible in appearance and quality to the one-family detached dwellings through the use similar building materials, colors, architectural features and styles. The permitted exterior building materials for the clubhouse building shall be face brick, cementitious lap siding, board and batten siding and trim and solid synthetic or composite trim. Vinyl shall not be a permitted exterior building material, provided, however, that vinyl may be utilized on the soffits and the exterior railings and vinyl windows may be installed. Vinyl shutters and other exterior accent features are permitted.

13. Signs

- a. Signage for the community shall be governed by and shall comply with the Ordinance.

14. Lighting

- a. The maximum height of any freestanding lighting fixture (including its base) installed within the parking areas located on the Site shall be 25 feet. All such free standing lighting fixtures shall be fully capped and shielded and the illumination downwardly directed so that direct illumination does not extend past any property line of the Site. Consideration will be given to the impact of lighting both within and without the perimeter of the Site. Items for consideration will include intensity, cut-off angles, color, energy efficiency and shielding of sources of light, the intent being to eliminate glare towards public streets and adjacent properties.
- b. Any lighting attached to the buildings to be constructed on the Site shall be decorative, capped and downwardly directed. "Wall-pak" type lighting fixtures may not be installed on the Site.

15. Storm Water

- a. Development of the Site shall comply with the Town of Matthews Post Construction Storm Water Ordinance and SWIM Buffer requirements.

16. Amendments to Rezoning Plan

- a. Future amendments to the Rezoning Plan and these Development Standards may be applied for by the then Owner or Owners of the Site in accordance with the requirements of the Ordinance.

17. Binding Effect of the Rezoning Petition

- a. If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under the Rezoning Plan and these Development Standards will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and the current and subsequent owners of the Site and their respective successors in interest and assigns.
- b. Throughout these Development Standards, the term "Petitioner" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of the Petitioner or the owner or owners of the Site from time to time who may be involved in any future development thereof.

Existing Tree Canopy

Proposed Tree Canopy

NOTES:
Existing Trees drawn using aerial photography.
These will need to be drawn and verified by a surveyor.

CALCULATION OF TREE CANOPY AREAS

TLD - U = NLD
NLD X 20% = RTTC

TLD: Total Land Disturbance Area in sq. ft.
(the entire identified site)
U: Any utility easements, road rights-of-way or
other area allowed to be excluded*
NLD: Net Land Disturbance Area
RTTC: Required Total Tree Canopy

BASELINE SITE CALCULATIONS

TLD: ±81.33 acres
U: (-) ±30.91 acres
NLD: ±50.42 acres
(*) 20%
RTTC: ±10.08 acres Required

CALCULATION OF (U)

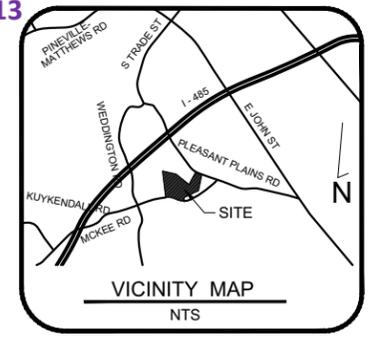

POWERLINE EASEMENT: ±12.58 acres
STREET RIGHT-OF-WAY: ±13.87 acres
STORMWATER FACILITIES: ±2.37 acres
EXISTING PONDS: ±1.14 acres
EXISTING STREAMS: ±.95 acres
U: ±30.91 acres

TOTAL TREE CANOPY CALCULATIONS

PRESERVED TREE CANOPY: ±0.58 acres
LANDSCAPE AREA TREE CANOPY: ±2.77 acres
STREET TREES PROVIDED (±400 TREES)**: ±18.36 acres
TOTAL TREE CANOPY: ±21.64 Acres (43%)

* NET ACREAGE DEFINITION FOR TREE SAVE CALCULATIONS:
Dedicated rights-of-way, to be dedicated rights-of-way, storm water facilities and easements that do not incorporate trees, utility easements, and existing ponds, lakes, or perennial streams may be subtracted from the total property area before the preservation requirements are calculated. See Sheet RZ-3 for calculations.

**STREET TREES:
Each large maturing tree that is newly planted, is calculated to provide 2,000 sq. ft. of tree canopy. Trees will be planted on each side of the right-of-way measured at a max. 40' o.c.

DEVELOPMENT STANDARDS
March 27, 2013

1. General Provisions

- a. These Development Standards form a part of the Rezoning Plan (the "Rezoning Plan") associated with the Rezoning Petition filed by Standard Pacific Homes (the "Petitioner") related to an 80.77 +/- acre site located near the intersection of Pleasant Plains Road and McKee Road, and more particularly depicted on the Rezoning Plan (the "Site").
- b. The Site's current zoning limits the use of the property to a large-scale retirement community accommodating up to 1250 units. As depicted on the Rezoning Plan, the Petitioner proposes to rezone 80.42 +/- acres of the Site to the R-VS zoning district in order to accommodate the development of a neighborhood of one-family detached dwellings and related amenities.
- c. In order to provide additional separation between the Site and architecturally significant residence and barn located on adjoining property owned by Timothy and Carolyn Fincher (Tax Parcel 227-562-03), a .35 +/- acre portion of the Site that is bounded by McKee Road to the South, the Fincher property to the west, the eastern boundary of the CMUD sanitary sewer easement to the east, and a future access dedication area to the north, the Petitioner proposes to rezone this portion of the Site to the R-20(CD) zoning district.
- d. The Petitioner proposes to develop a unique neighborhood that will accommodate a diverse range of housing types while also providing pockets of open spaces throughout the Site as well as a protected landscape area around the perimeter of the Site. In order to accommodate these features, this Rezoning Petition proposes the use of Innovative Development Standards, which are described in the Innovative Development Standards section below, as provided for by Section 153.207 of the Matthews Zoning Ordinance (the "Ordinance"). The Rezoning Plan identifies the specific areas where Innovative Development Standards may be applied.
- e. Unless the Rezoning Plan or these Development Standards establish more stringent standards, the regulations established under the Ordinance for the R-20 zoning district, shall govern any use for the .35 acre portion of the Site, and the regulations of the Residential Varied Style ("R-VS") zoning district (subject to the Innovative Development Standards set out below) shall govern all development taking place on the 80.42 +/- acre portion of the Site.
- f. The exact alignments of internal streets are subject to final design and engineering plans. Accordingly, minor modifications or alterations of these alignments may take place during design development and construction phases.
- g. The exact locations of lots and open spaces have not been determined. The Petitioner, therefore, reserves the flexibility to make adjustments to the precise lot and common area locations shown on the Rezoning Plan during the design development and construction phases. However, the placements of lots and common areas shall be generally consistent with the locations depicted on the Rezoning Plan and satisfy all other Ordinance standards.

2. Permitted Uses

- a. The Site may be devoted to a residential community of one-family detached dwellings and to any accessory uses that are clearly incidental and related thereto, including the following uses:
- (1) Subdivision sales office;
- (2) Accessory uses permitted in single-family districts, including but not limited to a swimming pool and clubhouse.

3. Maximum Density

- a. A maximum of 210 one-family detached dwelling units and accessory uses may be developed on the Site.

4. Innovative Development Standards

- a. Pursuant to Section 153.207 of the Ordinance, this Rezoning Petition seeks the approval and use of Innovative Development Standards in order to create a unique varied-style development on the Site. The Rezoning Plan incorporates a variety of housing types, protected perimeter landscape areas, pockets of open space within the developed area, innovative street designs with cul-de-sac planters, amenities that feature the property's natural features, and a large amount of passive open spaces.

- b. In order to accommodate the innovative site design features listed above, the Petitioner requests modifications to the R-VS development standards as set out below and shown on the Rezoning Plan:

- (1) Minimum Side yards: 5 feet
- (2) Minimum Setback: 10 feet
- (3) Minimum Rear yard: 20 feet

- (4) Minimum Parking on Corner Lots: Allowed in a sideyard within six feet of the side street

5. Setbacks and Yards

- a. Within the area designated on the Rezoning Plan as "Innovative Area," the setback and yard requirements of the R-VS zoning district may be modified through the use of Innovative Development Standards. All other areas shall satisfy the setback, rear yard and side yard requirements set forth in the R-VS zoning district.

- (1) Innovative Area:
- Minimum Side yard: 5 feet
Minimum Setback: 10 feet
Minimum Rear yard: 20 feet

- (2) Other Area:
- Minimum Side yard: 6/8 feet
Minimum Setback: 20 feet
Minimum Rear yard: 30 feet

6. Access

- a. The number of vehicular access points into the Site shall be limited to the number depicted on the Rezoning Plan.
- b. The Petitioner agrees to construct a vehicular connection from the Site to Hamlet Court, as generally depicted on the Rezoning Plan, in the event that such connection is required by the Town. In the alternative, Petitioner agrees to provide a pedestrian connection from the Site to Hamlet Court if so directed by the Town.
- c. The Petitioner agrees to provide for a future vehicular connection from the Site to the remaining portion of Tax Parcel 227-601-05 that is located east of the Duke Energy powerline easement along the Site's eastern boundary, as generally depicted on the Rezoning Plan.
- d. The Petitioner shall set aside and offer for dedication, an area to accommodate a potential future connection from the Site to Clarks Wind, as generally depicted on the Rezoning Plan. Petitioner shall not be obligated, now or in the future, to fund or construct any such connection. If, at some time in the future, Clarks Wind becomes a public right-of-way, the Town of Matthews may elect to establish a pedestrian or vehicular connection at this location.
- e. The Petitioner shall construct a pedestrian connection linking homes located in the southwestern portion of the Site to the proposed sidewalk along the Site's McKee road frontage, as generally depicted on the Rezoning Plan.
- f. The placement and configuration of the access points are subject to any minor modifications required to accommodate final site and construction plans and designs and to any adjustments required for approval by the North Carolina Department of Transportation ("NCDOT") and/or the Town of Matthews (the "Town").

7. Transportation Improvements

- a. Prior to the issuance of the first certificate of occupancy for any new building to be constructed on the Site, the Petitioner shall construct and install the following transportation improvements:
- (1) A southbound right-turn lane on Pleasant Plains Road with 100 feet of storage and a 150-foot bay taper at the intersection of McKee Road and Pleasant Plains Road;
- (2) Re-mark the existing middle lane (currently serving as a two-way left-turn lane) on McKee Road with an eastbound left-turn lane with 100 feet of storage at the Site's access point to McKee Road;

- (3) Construct a westbound right-turn lane on McKee Road with 100 feet of storage and a 150-foot bay taper at the Site's access point to McKee Road;

- (4) Construct the southbound approach of the Site's McKee Road access point for one ingress and two egress lanes (a combined left-through turn lane with a minimum of 150 feet of stem length and a lane that terminates as a right turn lane);

- (5) Re-mark the existing eastbound right-turn lane on Weddington Road to a combined left-right turn lane at the intersection of Pleasant Plains Road, S. Trade Street and Weddington Road;

- (6) Re-mark the existing painted median to accommodate a second northbound receiving lane on S. Trade Street at the intersection of Pleasant Plains Road, S. Trade Street and Weddington Road.

8. Streetscape Treatment/Sidewalks

- a. Sidewalks, planting strips and street trees shall be installed on both sides of all internal streets throughout the Site, as generally depicted on the Rezoning Plan. On internal streets, all sidewalks shall be at least five feet in width and all planting strips shall be at least eight feet in width as generally depicted by the street sections set forth on Sheet RZ-2. The locations of the internal sidewalks are subject to such modifications as may be required to accommodate final site and construction plans and designs and to any adjustments required for approval by the Town of Matthews Planning Staff.
- b. The streetscape treatments along the Site's frontage on McKee Road shall comply with the requirements of the Ordinance and the Rezoning Plan. The sidewalks to be installed along the Site's frontage on McKee Road shall be at least eight feet in width and may meander. To the extent that the sidewalks installed along the Site's frontage on McKee Road or any portions thereof are not located within public right of way, the Petitioner shall grant an easement to the Town for the use and maintenance of the sidewalks or the relevant portions thereof.
- c. The location, design and installation of the sidewalks along the Site's frontages on McKee Road shall be subject to the approval of the NCDOT.

9. Passive Open Space/Amenities

- a. As depicted on the Rezoning Plan, 16.15 acres shall be devoted to passive open space. The Petitioner reserves the right to install underground utilities within the open space areas.
- b. The Petitioner may install walking trails around ponds and within other open space areas of the Site.
- c. The Petitioner agrees that within six (6) months after this Rezoning Petition is approved, it will enter into conversations with the Town of Matthews to explore the possibility of conveying or granting an easement to the Town, or other public entity, over that part of the Site which lies within the Duke Energy power line easement along the Site's eastern boundary, subject to a mutually agreeable arrangement providing for the maintenance and upkeep of this area by the Town, or other public entity, and, in the event of an easement, providing Petitioner with a liability insurance policy protecting it from and against liability arising from any public activities on this portion of the Site.
- d. The community to be developed on the Site shall, at minimum, contain the following amenities:
- (1) A clubhouse building;
- (2) A swimming pool; and
- (3) Passive open space areas.

10. Protected Landscape Areas

- a. Petitioner shall provide Protected Landscape Areas around the perimeter of those portions of the Site which are generally depicted on the Rezoning Plan.
- b. Protected Landscape Areas along the Site's frontage on McKee Road shall be at least 30 feet wide. In all other areas, the Protected Landscape Areas shall be at least 20 feet wide.
- c. Within the Protected Landscape Areas the Petitioner shall install four trees and twelve shrubs per 100 linear feet of Protected Landscape Area. All trees shall have a minimum caliper of 2 inches measured 6 inches above ground at the time of planting. At least 75% of the shrubs shall be evergreen and at least 2½ feet tall when planted with an average height of 5 to 6 feet to be expected as normal growth within four years. Where practical, Petitioner shall preserve vegetation within the Protected Landscape Areas, especially trees.

11. Trees

- a. The Petitioner shall satisfy or exceed the Ordinance's requirement to provide a 20% Tree Canopy through a combination of preserved trees and new plantings as shown on the Rezoning Plan.

12. Architectural Commitments

- a. Set out on Sheet RZ-5 of the Rezoning Plan are architectural perspectives that are intended to depict the general architectural style, character and elements of the front elevations of the one-family detached dwellings proposed to be developed on the Site. Accordingly, the front elevations of the proposed one-family detached dwellings to be developed on the Site shall be designed and constructed so that they are substantially similar in appearance to the schematic architectural perspectives in terms of their architectural style, character and elements.
- b. The permitted exterior building materials for one-family detached dwellings shall be brick, synthetic stone, cementitious lap siding, board and batten siding and trim and solid synthetic or composite trim. Vinyl shall not be a permitted exterior building material, provided, however, that vinyl may be utilized on the soffits and the exterior railings and vinyl windows may be installed. Vinyl shutters and other exterior accent features are permitted.
- c. The clubhouse building shall be compatible in appearance and quality to the one-family detached dwellings through the use similar building materials, colors, architectural features and styles. The permitted exterior building materials for the clubhouse building shall be face brick, cementitious lap siding, board and batten siding and trim and solid synthetic or composite trim. Vinyl shall not be a permitted exterior building material, provided, however, that vinyl may be utilized on the soffits and the exterior railings and vinyl windows may be installed. Vinyl shutters and other exterior accent features are permitted.

13. Signs

- a. Signage for the community shall be governed by and shall comply with Section 153.151 of the Ordinance.

14. Lighting

- a. The maximum height of any freestanding lighting fixture (including its base) installed within the parking areas located on the Site shall be 25 feet. All such free standing lighting fixtures shall be fully capped and shielded and the illumination downwardly directed so that direct illumination does not extend past any property line of the Site. Consideration will be given to the impact of lighting both within and without the perimeter of the Site. Items for consideration will include intensity, cut-off angles, color, energy efficiency and shielding of sources of light, the intent being to eliminate glare towards public streets and adjacent properties.
- b. Any lighting attached to the buildings to be constructed on the Site shall be decorative, capped and downwardly directed. New "wall-pak" type lighting fixtures may not be installed on the Site.

15. Storm Water

- a. Development of the Site shall comply with the Town of Matthews Post Construction Storm Water Ordinance.

16. Amendments to Rezoning Plan

- a. Future amendments to the Rezoning Plan and these Development Standards may be applied for by the then Owner or Owners of the Site in accordance with the requirements of the Ordinance.

17. Binding Effect of the Rezoning Petition

- a. If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under the Rezoning Plan and these Development Standards will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and the current and subsequent owners of the Site and their respective successors in interest and assigns.
- b. Throughout these Development Standards, the term "Petitioner" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of the Petitioner or the owner or owners of the Site from time to time who may be involved in any future development thereof.

Existing Tree Canopy

Proposed Tree Canopy

CALCULATION OF TREE CANOPY AREAS

TLD - U = NLD
 NLD X 20% = RTTC

TLD: Total Land Disturbance Area in sq. ft.
 (the entire identified site)
 U: Any utility easements, road rights-of-way or
 other area allowed to be excluded*
 NLD: Net Land Disturbance Area
 RTTC: Required Total Tree Canopy

CALCULATION OF (U)

POWERLINE EASEMENT: ±12.58 acres
 STREET RIGHT-OF-WAY: ±11.36 acres
 STORMWATER FACILITIES: ±1.08 acres
 EXISTING PONDS: ±1.14 acres
 EXISTING STREAMS: ±.95 acres

U: ±27.11 acres

BASELINE SITE CALCULATIONS

TLD: ±80.77 acres
 U: (-) ±27.11 acres

NLD: ±53.66 acres
 (*) 20%

RTTC: ±10.73 acres Required

TOTAL TREE CANOPY CALCULATIONS

PRESERVED TREE CANOPY: ±1.45 acres
 LANDSCAPE AREA TREE CANOPY: ±1.88 acres
 STREET TREES PROVIDED (±350 TREES)**: ±16.07 acres

TOTAL TREE CANOPY: ±19.40 Acres (36%)

* NET ACREAGE DEFINITION FOR TREE SAVE CALCULATIONS:
 Dedicated rights-of-way, to be dedicated rights-of-way, storm water facilities and easements that do not incorporate trees,
 utility easements, and existing ponds, lakes, or perennial streams may be subtracted from the total property area before
 the preservation requirements are calculated. See Sheet RZ-3 for calculations.

**STREET TREES:
 Each large maturing tree that is newly planted, is calculated to provide 2,000 sq. ft. of tree canopy. Trees will be planted
 on each side of the right-of-way measured at a max. 40' o.c.

NOTES:

Renderings are for conceptual purposes only. Typical building front elevations for proposed development. See additional notes, Sheet RZ-5 Development Standards, note 12
