

Discover
the rich history of our Town at the new Matthews Historical Museum.

Matthews began as a place of trade and merchandise. In the 1800's a railroad station was located here, which was a convenience for our farmers. A number of trains still roll through Town several times a day. Get an up close view of the trains from the historic Town Depot/Visitor's Center.

The Depot offers a free interactive experience for your family—our caboose is a favorite spot for wedding/prom/family photos and a fun place where children are welcome to play.

Take a minute and see the Town's historical mural inside the Public Library which is located near the Depot.
